Agiltron Recognized for Continued Revenue Growth – Receives *Deloitte Technology Fast 50* Award

Woburn, MA, September 20, 2007 – Agiltron, Inc., a developer and manufacturer of optical components and systems, has been recognized for a third consecutive year as one of the fastest growing technology companies in New England by Deloitte & Touche USA.

“To rank on Deloitte’s Technology Fast 50, companies must have phenomenal revenue growth over five years,” explained Steve DiPietro, a Partner with Deloitte & Touche LLP and chair of the New England Technology Fast 50 Program. “Agiltron has proven to be one of the fast-growth success stories in New England and we applaud their dedication to making their vision a reality.” This award recognizes fast-growth technology companies that have been in business for at least five years and ranks the 50 fastest growing technology companies headquartered in New England. To qualify for the Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2002 and \$5,000,000 in 2006, be headquartered in North America, and be a company that owns proprietary technology or intellectual property that contributes to a significant portion of the company’s operating revenues.

Agiltron attributes its success to its talented employees whose dedication to research and development and quality manufacturing enables the Company to move ahead in the technology industry. “We are pleased to again be recognized as a Fast 50 company,” said Dr. Jing Zhao, founder and CEO of Agiltron. “This award is a tribute to the achievements of Agiltron’s employees in sustaining rapid growth by manufacturing products that satisfy market needs and providing exceptional service to our customers.”

Agiltron is a vertically integrated developer and manufacturer of premium fiberoptic components, optics, and optical systems for the aerospace, communication, and security industries. These products are based on optical, micro-mechanical systems, and nano-materials core technologies. Agiltron’s commitment to research and development has propelled growth through the introduction of innovative products. “Deloitte’s New England Technology Fast 50 companies have shown the strength, vision and tenacity to succeed in today’s very competitive technology environment,” said DiPietro.

About Agiltron

Agiltron designs, develops and volume manufactures advanced optical and photonic components and systems solutions based on breakthrough materials, technology and processes. The Company provides differentiated products having industry leading performance and value for optical switching, network reconfiguration and control, photonic time delay and filtering, thermal imaging, and transparent conductive and antistatic coatings. An ISO 9001 and AS 9100 certified optical systems manufacturer, Agiltron provides both standard products and customer-driven special product development and manufacturing services. Customers include major aerospace, defense, cable and telecommunications companies around the globe. Agiltron's technology is covered by 28 issued or pending patents. Additional company and product information is available at www.agiltron.com.

About Deloitte Touche

Deloitte & Touche USA LLP is one of the nation's leading professional services organizations.
