

*et*MEMS™

**Ultra Mini Variable Optical Attenuator**

(US patent 8,666,218 and other patents pending)

**Product Description**

The *et*MEMS™ Series VOA is based on a proprietary micro-electro-mechanical mechanism featuring compact design, simple construction, easy direct drive, and excellent optical performance. The *et*MEMS™ series VOA is compliant with the Telcordia 1209 and 1221 reliability standards.

The *et*MEMS™ series VOA is available in either normally-open or normally-closed configurations and with an integrated tap option. The VOA is driven by applying an electrical voltage.
